

Injury Prevention Advisory Council

October 3, 2008

ISDH

Indianapolis, IN

Attending: Stephanie Lefler, Karen Bruner Stroup, Kira Hudson, Joan Duwve, Susan Perkins, Mary Raley, Barbara Cole, Merry Addison, Dawn Daniels

- I. Introductions and Conference callers welcome
- II. Direction and focus of Advisory Council: Mary Raley from St. Mary's and Dawn Daniels from Riley have volunteered to be co-chairs of group. The statewide injury prevention survey was sent out to each Trauma Center to gather IP data from their districts. There have been approximately 30 surveys returned to this date.
- III. Future goals and objectives: Group members will be gathering information from other state injury prevention programs and STIPDA for the group to review and determine a plan of action for Indiana. Susan will extract a summary of recommendations for state/regional IP programs from the ACS-COT for the group to review as well. Dawn recommended that core competencies for Injury and Violence Prevention developed by STIPDA be evaluated by the group as a tool for training and assessing organizational capacity and competency.
- IV. ISDH and Trauma update: Susan updated the group on her progress as she completes the PRQ for the upcoming ACS Consultation visit, stating that she foresees as many as 200 recommendations coming from the committee. (Injury Prevention as Task Force priority area, and Trauma Registry??)
- V. Members Updates??
- VI. Meetings: Will be held monthly for the next few months so that we don't lose momentum. The next meeting will be on November 7th from 10AM – noon (Eastern) with conference calling available. Susan will take responsibility for call arrangements.

Respectfully submitted,
Mary Raley, RN, BSN
IP/Education/Outreach Coordinator
St. Mary's Medical Center
